

CALL FOR ENTRIES

DEADLINE EXTENDED: NOV 5 2009

HOW Books and Chen Design Associates (CDA) invite you to submit entries for a follow up book to the best-selling *Fingerprint: The Art of Using Handmade Elements in Graphic Design*.

LOOK WHAT I MADE!

We've reached a unique point in design history where we've moved beyond both the infatuation with and the backlash against technology. Today, the best designers combine the power of the computer with the tactile qualities of handmade elements. *Fingerprint 2* (working title) will explore the power of the handmade to help designers reconnect with their audiences and provide surprising new ways of seeing and resolving problems. Even the hint of a handmade element can activate a surface, instill passion and energy into a medium, and reassure the recipient that human understanding and insight are the foundations for the message. Once again authored and designed by Chen Design Associates, this follow-up book will be a celebration of the presence of the human hand in visual communication and the breath of fresh air such a presence delivers into a field often challenged by predictable, passionless solutions.

HOW CALL FOR ENTRIES Handmade DESIGN ELEMENTS

ELIGIBILITY

All entries must possess at least one handmade element. This element may consist of — but is not limited to — illustration, hand-rendered typography, typography created in other non-traditional ways (photographic, sculptural, etc.), work in which a surface or material has been manipulated and then photographed, collage, binding, finishing touches (such as stitching, dipping, folding, cutting, etc.), or printing techniques (letterpress, screen printing, etc.) that evoke a sense of the handmade.

There is no limit to the number of entries that can be submitted, but all submissions need to have been produced in 2006 or later. Entries can be one-offs, limited edition or mass-produced and are not limited to print design only — packaging, exhibition, and web-based design will also be considered. A separate entry form should be attached to each entry. **Please remember to sign each entry/permission to publish form.**

WHAT TO SEND

Entries: Actual printed sample preferred. Please include two samples of each entry. A high-resolution digital file of the entry is acceptable as well.

Statement: In addition to samples or digital files, we also request a written statement for each entry. Statements should be 100–150 words in length and should address why a handmade element was important for the success of the design, the actual process of creating the piece, and/or thoughts on the value of handmade elements in design. HOW and Chen Design Associates reserve the right to edit statements as necessary and may pose further questions to those whose submissions are accepted for the book.
